HONGKONG VOLUNTEERS.

ENTLEMEN willing to take an active I part in the formation of the proposed VOLUNTEER FORCE are levited to put themselves in communication with the Recruit-ing Committee appointed by His Excellency the Governor at the Public Meeting at the City Hall on the 19th December last,

The Members of the Committee are:-J. J. FRANCIS, Esq., Q C., Chairman. The Hon. J. H. STEWART LOCKHART. Lieut-Colonel J. JERRARD. Gaptain McCallum, H.K.V. J. ARMSTRONG, Eig.,

who will be found at their Offices daily, from 2 to 4 P.M. prepared to give all needful explanations and to enrol Members. The Committee will sit regularly on TUES-DAYS and FRIDAYS at the Chambers of Mr.

FRANCIS, Q.C., Bank Buildings, from 4 to 5 The Force will be on the same footing as are Volunteers in England, that is to say: They are liable in case of war to be called up for active service and will then be under military command and subject to military law, receiving

the same pay as regularly enlisted soldiers, and being entitled to pensions for wounds, &c., &c. They will not be required to serve out of the Colony and will be led by their own Officers. In peace time, they are liberty to leave at any time on 14 days notice; will only be under military command when voluntarily exercising or on duty together with the regular troops; will be subject to such regulations as to drill, discipline, and efficiency as His Excellency the Governor may appoint, and will be annually inspected by a regularly deputed Military Officer.

The Government will defeay all expenses of the Corps other than the cost of uniforms of Commissioned Officers.

It is desired to establish one Battery of Artillery and 3 Machine Gun Companies, all the Members to be trained also in the use of the Rifle or Carbine, Pony draft for both Field and Machine Gunz will be provided to and from place of exercise or parade.

It is suggested that friends and acquaintances should combine to form a gun detachment of 12 men, or a half company (or Section of Field Artillery) of 24 men, or even a complete Company or Battery.

. The Officers of the Battery when complete" will consist of one Captain and three Lieutenants and those of each company of one Captain and two Lieutenants. Such Officers to be elected by their own men, the Lieutenants by the half companies or sections, the Captain by the company or battery. Such election to be subject to the approval of His Excellency the

The uniform of the Field Battery will remain as at present, that of the machine gun companies will be a matter for future consideration, a working dress only being provided for the ensuing drill season,

One month in the year (the month of March being at present proposed) will be set apart for the annual training when drills will take place twice a day. Volunteers will also be expected to attend at least one parade monthly during the rest of the year. The minimum number of Office, well-known throughout India and the East, and has acquired a marked character for Volunteer to be deemed efficient will be hereafter fixed by the Governor in Council on the recommendation of the Major-General.

Gentlemen are seminded that the proposal for obtaining a vote of the Legislative Council for funds to establish and maintain the Corps is conditional on the enrolment of not less than 120 Volunteers by the 31st of January instant, and the Committee hope, for the credit of the Colony, that this number will be largely exceeded.

FLUID EXTRACT OF MALT.

THE use of that extremely valuable Food and Remedy EXTRACT OF MALT has been retarded by its usually viscid condition; to obviate this objection we have had prepared a FLUID EXTRACT OF MALT as easily poured out of the bottle and measured into doses as any other Fluid.

It contains as much of the DIASTASE as any viscid EXTRACT OF MALT and is therefore fully as active in tissue forming and digestive power,

Two tablespoonfuls of our FLUID EXTRACT OF MALT contain more nutritive and digestive value than a pint of the strongest Ale or Stout. In 11b. bottles 75 cents. Per dozen \$8.00. Hongkong, 12th January, 1893.

The trial will be the most important one in naval history for many years. We believe that the last court-martial on an Admiral was that held on Rear-Admiral Wilmot, when his flagship, the Agincourt, grounded on the Pearl Rock. The result of the trial was that the Rear-Admiral lost his command, and Vice-Admir. Wellesley, in command of the squadrow, was superseded.

Five thousand guilders is the amount stated to have been embezzled, When arrested Simonds is said to have had in his possession about 7,000 guilders in notes and colo, It is further alleged that when arrested. Simonds threw the money on the deck of the vessel and said "Here, share this between you; I might just as well go overboard!"

THE new series of postage stamps for the French Colonies, bearing the names of the different territories, is now i sued. The design is somewhat on the same general plan as the old uniform series, not remarkably beautiful. The Indo-China stamps have the name in red letters at the base. The Progres de Saigen complains that the stamps are being sold at the Paris office of the Under-Secretary for the Colonies, thus robbing the Colonial revenue of at least two and a half millions of france for the first year of issue, and 60,000 f. per annum afterwards.

THE Douglas Co's well known Formesa liner Fokies was piloted into port this morning by Captain W. Davis with fiving colours, having completed her three hundredth trip. She was tastefully dressed from truck to keel with vail-colour d bunting, the numerals denoting "300" being conspicuously displayed splot Folian which has outlived by several years many of her larger and more powerful rivals in the coast trade, is still under the command of a master mariner whose skill as a navigator and sailor is exceeded only by his couriesy and the interest he takes in the welfare of his distinguished employers and the officers whose good fortune it is to serve under a British sailor and gentleman.

A NAVAL contemporary says :-- Although we have been unable to obtain any confirmation of the statement made in The Times on December and that, with the intention of reducing the trooping service, all ships are in future to be sent to England instead of being recommissioned abroad; we trust it may be true. For many reasons it is desirable that this "perpicious" system-as Admirals Sir William Dodwell, Sir R. Vesey Hamilton, and Sir Frederick Richards called it in their celebrated report on the Naval Marceuvies of 1888-should be abolished but, as they also said, it is an "economical arrangement, and, from that point of view, has its advantages in peace time." The fact that it appears to have "cheapness" in its favour will, we fear, make it impossible for the naval authoristies to entirely do away with it, but, as all the Sea Lords are perfectly well aware that it is not "cheap" in the long run, and that it is directly responsible for the dearth of reserves, it is certainly doomed if they can have their way,

An interpreter of the Chinese Minister (says the Salgon Progras) hired a carriage one night last week, about ten o'clock, to go to Cholon, where he stayed all night. Returning in the morning by the same vehicle, he gave the driver to cents. and of course there was a row, in which the Celestial, after a visit to the police station, got off best. A brief reference to the incident in the Progras called forth a two-column letter stating that the thinese gentleman was not a mere interpreter, but the No. 1 attache, for in Paris, and destined next year for a high post in the legation at Washington. He took the carriage after midnight and went to a hinese theatre, with two officers of the Japanese having been ignominiously shoved into the lockup for several hours, the affair created a great stir in Saigon. Diplomatic relations between France and China have not been broken off.

Mr. Sim, his assistant, told him he ought to wash his hands, as a matter of safety, but Valuate replied that he was quite accustomed to going up in that state; and it was remarked that he did not take the precaution which every other parachutist invariably takes—that of securing his body to the parachute by cards or
